Project Name	EduGenie: Google Gemini Powered Learning Assistant
Team Size	5
Team Leader	KARISHMA S
Team Members	KARISHMA S, SUBALAKSHMI S, Sandhiya V, Nivetha S, Shamini B
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand the customer's point of view. The statement below is based on EduGenie and focuses on the learner's need for simple, accessible and personalized educational support.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student or learner who needs academic support.	Understand difficult topics, get answers, practice with quizzes, summarize content, and follow a learning path.	Traditional learning resources can be lengthy or difficult to understand, and personalized guidance may not always be available.	EduGenie uses generative AI to provide concise answers, simplified explanations, quizzes, summaries, and personalized learning recommendations.	More supported, motivated, and confident while learning.
